## Vol.15, No.6/2025

|     |                                                                                                                                                                                                                                                             |       |
|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| 1.  | Immediate loading of single implants in the posterior region: a narrative review of clinical consideration<br><i>Do Thanh Tin, Vo Hoang Thuy Tien, Nguyen Thi Thuy Duong, Tran Tan Tai</i>                                                                  | 9-14  |
| 2.  | Chemical composition and antioxidant activity of <i>Alphonsea monogyna</i><br><i>Nguyen Dinh Quynh Phu, Nguyen Thi Sen, Hoang Xuan Huyen Trang, Nguyen Khanh Thuy Linh, Doan Quoc Tuan</i>                                                                  | 15-21 |
| 3.  | Bayesian approach to AUC-guided vancomycin monitoring in Intensive Care Unit and Poison Control Department<br><i>Do Tran Khanh Vy, Vo Nguyen My Ngan, Nguyen Nhu Minh, Le Phuc Quynh Nhu, Le Ba Hai, Vo Thi Ha</i>                                          | 22-28 |
| 4.  | Antifungal activity of Vietnamese essential oils against dermatophytes fungi<br><i>Nguyen Van Khanh, Truong Thi Yen Nhi, Nguyen Duy Nien, Nguyen Canh Nhat, Do Thi Bich Thao, Ngo Thi Minh Chau</i>                                                         | 29-36 |
| 5.  | Evaluation of reliability and validity of the family adaptability and cohesion evaluation scale (FACES III) among medical students<br><i>Tran Thi Tra My, Nguyen Thi Phuong Mai, Tran Binh Thang, Le Dinh Duong, Dang Cao Khoa, Nguyen Bao Tran</i>         | 37-44 |
| 6.  | Association between body composition and clinical-subclinical features in female patients with primary knee osteoarthritis<br><i>Nguyen Hoang Thanh Van, Nguyen Tien Manh, Nguyen Dinh Huan</i>                                                             | 45-49 |
| 7.  | Impact of epidural analgesia on labor progression and maternal-fetal outcomes: a comparative observational study<br><i>Tran Doan Tu, Nguyen Khoa Bao, Nguyen Vu Quoc Huy, Le Minh Tam</i>                                                                   | 50-57 |
| 8.  | Peak nasal inspiratory flow: normal values in a healthy vietnamese adult population<br><i>Hoang Phuoc Minh, Ho Dang An</i>                                                                                                                                  | 58-61 |
| 9.  | Clinical characteristics and preoperative outcomes in neonates with severe congenital heart disease at Hue Central Hospital<br><i>Do Ho Tinh Tam, Nguyen Cong Loi, Hoang Mai Linh, Nguyen Phuc Thu Trang, Nguyen Nom, Nguyen Thi Thao Trinh</i>             | 62-67 |
| 10. | Optimization of extraction total flavonoids and marker compounds from <i>Passiflora foetida</i> L. using response surface methodology<br><i>Nguyen Huu Tien, Dang Tran Minh Xuan, Tran Huu Dung</i>                                                         | 68-76 |
| 11. | Study on severe prognostic factors in patients with sepsis at Hue Central Hospital<br><i>Hoang Trong Hanh, Vu Hoang Viet, Pham Trung Hieu</i>                                                                                                               | 77-81 |
| 12. | Investigation of Wei (protective), Qi (vital), Ying (nutritive), and Xue (blood) syndromes according to traditional medicine in patients with dengue hemorrhagic fever<br><i>Le Thi Kim Quy, Le Cong Hau, Nguyen Thien Phuoc</i>                            | 82-89 |
| 13. | <i>In vitro</i> anti-inflammatory, cytotoxic properties and quantification of total triterpenoids in <i>Gymnosporia chevalieri</i> Tard. leaves<br><i>Doan Thi Ai Nghia, Hoang Thi Nhu Hanh, Le Tuan Anh, Le Thi Hong Van, Nguyen Thi Hoai, Ho Viet Duc</i> | 90-95 |

|     |                                                                                                                                                                                                                                                                                       |         |
|-----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| 14. | Impact of septoplasty with high-frequency inferior turbinate reduction on quality of life<br><i>Tran Ngoc Hong Nhung Ho Minh Duy Vo Doan Minh Nhat Hoang Phuoc Minh<br/>Nguyen Luu Trinh Le Thanh Thai Ho Minh Tri</i>                                                                | 96-104  |
| 15. | Nutritional status and associated factors among high school students at Hue city, central Vietnam: a cross-sectional study<br><i>Tran Thi Tao Tran Binh Thang Hoang Vu Nhat Kha Phan Thi Cam Van<br/>Le Thi Kim Oanh Le Thi Thuy Kieu Anh Phon Tu Ngoc Minh Tram Phung Thanh Tung</i> | 105-110 |
| 16. | Effectiveness of dexamethasone in preventing postoperative nausea, vomiting, pain, and enhancing recovery after adult tonsillectomy: a randomized controlled trial<br><i>Tran Thi Thuy, Phan Tran Phuc Bao, Phan Thang,<br/>Pham Thi Minh Thu, Nguyen Van Minh</i>                    | 111-117 |
| 17. | Serum sclerostin levels in patients with non-dialysis chronic kidney disease<br><i>Vo Thi Hoai Huong, Nguyen Hoang Thanh Van, Phan Thi Minh Phuong</i>                                                                                                                                | 118-124 |
| 18. | A study to establish a formula for predicting the mesiodistal size of permanent canines and premolars for use in space analysis<br><i>Nguyen Le Minh Trang, Le Thi Khanh Huyen<br/>Nguyen Ngoc Tam Dan Nguyen Thi My Linh</i>                                                         | 125-131 |
| 19. | Halitosis and volatile sulfur compounds in monastic residents: A cross-sectional study of mediating mechanisms<br><i>Nguyen Thi Nhat Vy, Nguyen Thi Thanh Duyen<br/>Nguyen Thi Phuong Thao Nguyen Duc Quynh Trang</i>                                                                 | 132-139 |
| 20. | An Advanced Machine Learning Framework to Identify Associated Factors and Predict the Risk of Oral Candidiasis in Cancer Patients<br><i>Bach Duy Thai Truong Tuan Khanh Bui Anh Thu Trieu Thi Oanh Bui Tuan Dat<br/>Nguyen Thi Hong Chuyen Ton Nu Phuong Anh</i>                      | 140-150 |
| 21. | Histopathological characteristics and treatment options of papillary thyroid carcinoma less than 1 cm at Hue University of Medicine and Pharmacy Hospital<br><i>Dang Cong Thuan, Ngo Quy Tran, Tran Thi Nam Phuong,<br/>Tran Van Bao, Le Thanh Huy, Le Vi</i>                         | 151     |
